Athanasios (Nasos) Evangelou-Oost

Phone: 0480-163-740
Email: nasosev@pm.me
URL: https://nasosev.github.io

Nationality: Australian, Greek
Languages: English (native), French (C1)

Current position

PhD candidate, The University of Queensland, St Lucia

Areas of specialisation

Mathematics: algebra, applied category theory, applied topology;
Programming: Haskell, F#, Lean, Isabelle, Dafny, C#, Java, MATLAB, Mathematica, R, Python, SQL, Excel

Experience

2021 Teaching assistant for COMP3400 *Functional and logic programming*, The University of Queensland
2021 Teaching assistant for CSSE3110 *Reasoning about programs*, The University of Queensland
2014–present Private tutor in computing, mathematics, and statistics (link)
2015–2018 IT consultant, The Pen Shoppe/The Model Shoppe (link)
2013–2014 Teacher of English as a foreign language, American Academy (Vietnam) (link)

Education

2020–present PhD candidate in computer science, The University of Queensland
2018–2019 BMath (Hons Class I) in pure mathematics, GPA CUM. 7.0/7.0, The University of Queensland
Thesis: *Homological aspects of Morse-Bott theory* (link)
2014–2015 BSci (Hons) — incomplete — (80% coursework completed), GPA CUM. 7.0/7.0, The University of Tasmania
2010–2012 BSci in pure mathematics, GPA MAJ. 6.9/7.0, The University of Tasmania

Honours & awards

2020 Ethel Raybould Prize in Mathematics, The University of Queensland
2020 Category 1 Earmarked RTP scholarship, The University of Queensland

2019 Dean's Commendation for Academic Excellence, The University of Queensland
2018 Dean's Commendation for Academic Excellence, The University of Queensland
2012 Tasmania Honours Scholarship, The University of Tasmania
2012 Dean's Roll of Excellence, The University of Tasmania
2010 Dean's Roll of Excellence, The University of Tasmania

Publications & talks

Journal articles

2019 Dolinka, Igor, East, James, Evangelou, Athanasios, FitzGerald, Des, Ham, Nicholas, Hyde, James, Loughlin, Nicholas, & Mitchell, James D. (2019). Enumeration of idempotents in planar diagram monoids. *Journal of Algebra*, 522, 351–385. https://doi.org/10.1016/j.jalgebra.2018.11.014

2015 Dolinka, Igor, East, James, Evangelou, Athanasios, FitzGerald, Des, Ham, Nicholas, Hyde, James, & Loughlin, Nicholas. (2015). Enumeration of idempotents in diagram semigroups and algebras. Journal of Combinatorial Theory. Series A, 131, 119–152. https://doi.org/10.1016/j.jcta.2014.11.008

Talks

2019 *Homological aspects of Morse-Bott theory* (link), UQ analysis seminar
2019 *Hodge theory* (link), UQ riemannian geometry reading course
2018 *Čech cohomology of a cover* (link), UQ algebraic topology reading course
2018 *Representation theory of semisimple Lie algebras* (link), UQ quantum field theory seminar
2015 *Combinatorial structures on non-crossing partitions* (link), UTAS undergraduate research presentation

Workshops attended

2021 Categories and Companions Symposium (link)
2021 Midlands Graduate School in the Foundations of Computing Science (link)
2020 Applied Category Theory (link)
2019 ANU Computational Topology Workshop AMSI sponsored participant (link)

Affiliations
